

## The Highest Quality Suppliers.

The **Altius Network** is reserved for the **highest quality suppliers** that either join to work for a specific client or simply want to show business competency. **Over the past ten years** Altius have worked on behalf of key clients to help them manage their supply chains effectively. The **Altius Network of suppliers** has grown significantly over this period to become one of the leading and innovative accreditation schemes in the country.

### How it Works

The supplier selects the accreditation they wish to obtain then selects their clients from the Altius client list. If the supplier does not have an existing relationship with any clients, they can also join to be part of the **Altius Assure network**.

Once this selection has been made the supplier is guided to answer the requirements needed to obtain this accreditation.

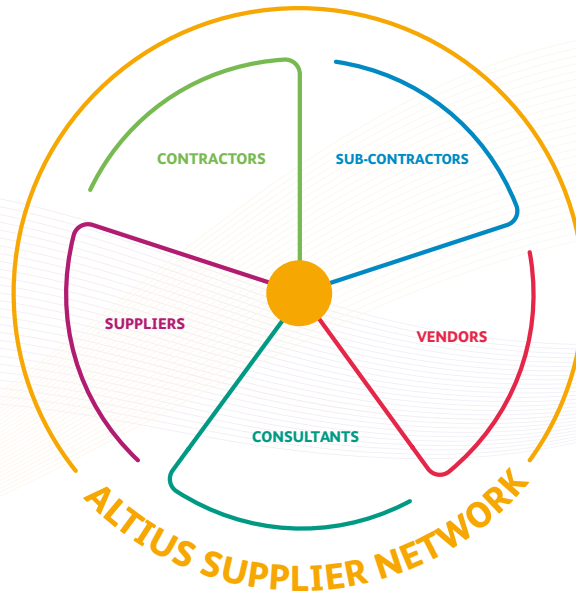

If a client is selected they are also guided to answer the requirements specific to the clients.

Altius work continuously throughout the year to ensure suppliers remain fully compliant. In short, suppliers pay to join this '**shared quality network**' and Altius manage their compliance profile to ensure everything is always up-to-date and correct.

### Why Clients choose Altius

When Altius are engaged by a client to work on their behalf it is with the peace of mind that suppliers will be supported, to ensure they are capable and competent to work safely and comply with regulation changes, best practise and client specific requirements and policy.

Unlike other schemes, clients can tailor assessments to their requirements and Altius will on-board and assist their suppliers throughout the year to ensure they are always fully compliant.

This innovative, 'Live-Profile', customer focused approach is something that no other scheme offers and is one of the reasons clients and suppliers choose to work with Altius.

Not only that, Altius also boast one of the quickest turn around with **over 90 %** of suppliers obtaining their assessment report / gap analysis **within 2 working days** from submission.

Although many suppliers in the **Altius Network** join because they are required to by a client, they also join to obtain one of the most highly regarded accreditation's around, and have the opportunity to showcase their Altius profile to potential clients.

Many Altius members renew year after year purely to access this 'live profile' which lessens their annual burden along with providing tools to share this profile with anyone they wish.

Whether looking to join for a specific client, or simply wanting the opportunity to work for Altius' clients, suppliers get full support and management of their data throughout the year with Altius
